

*We close the doors of Extropy
Institute*

*with a positive, proactive view of the future
and with fond memories of the past*

*as we open the
window of opportunity*

*of the Proactionary
Principle*

“ProP”

May 3, 2006

Extropy Institute invites you to join the core in applying the ProP to specific decision-making situations at your organizations and enterprises. In the coming years, we believe the ProP will greatly help society by bridging the growing gap between conservative views and progress views by proactively protecting the freedom to innovate while thinking and planning intelligently for collateral effects.

Don't stop it; **ProP** it!

Natasha Vita-More
Extropy Institute, President
